## Notas.

1.a En las Misiones de la Alta California se ha reducido al Gremio de N. Sta. M.e Yglesia p.r los Religiosos de S. Fernando 3787. Gentiles del Campo; y en las Misiones de la Antigua Calif.a p.r los Dominicos 30. no obstante no corresponde el aumento, pues regulados los muertos con los nacidos es sumamente inferior el num.o de estos; p.r lo que excede en el pte. año la regulac.on de q.s fallece duplicado numero de los q.s nacen.

2.a Los Ganados anotados en los Presidios son de la Tropa Ynbalidos, y Vecinos agregados, á mas ay perteneciente á R.l Hacienda en los de Monterrey S. Fran.co y S. Diego 3363. de Ganado Bacuno.

3.a Ya no se toma razon de la Cavallada q.e existe en el Rancho de Monterrey perteneciente á R.l Hacienda, á causa de no poderse Sugetar p.r ser mucha y extendida á mucha distancia.

4.a El Ganado abrado de la Antigua Calif.a tiene su disminucion p.r aver sido años escasos de Pastos.

5.a En la Antigua Calif.a se cosecha Pasas Datiles Higos, y alg.n Aguard.te aunque el pte. año a sido corta la Cosecha.

6.a Al Sur de la Antigua Calif.a ay Minas de Plata, y Placeres de Oro: Del primer metal se á sacado el pte. año alguna q.e los años anteriores p.r averseles proporcionado Azogue á las Minas.

7.a La pesca de la Perla fue de mas consideracion q.e los años anteriores.

8.a Siendo como se ha dicho otras veces sano el temperam.to de ambas Californias a principios del año hubo bastante mortandad particularm.te de Indios Cristianos y Gentiles.

El Rey. Por quanto estando dispuesto por diferentes Leyes de Indias,
y con especialidad por la octava del tit.º 3. Lib. 6 de la Recopilacion de ellas,
q.e a las nuevas Reducciones y Pueblos de Indios, que se fueren formando, se les
de sitio q.e tenga commodidad de aguas, tierras, montes, salidas y entradas
para q.e hagan sus Labranzas, y un Egido de una legua por cada viento, donde
pasteen sus ganados, sin q.e puedan revolverse con los de los Españoles; se me
ha informado, se falta enteramente a esta disposicion en todas las Missiones
de la N. E., pues Governadores, y encomenderos no solo no les dan tierras a los
Indios para q.e formen sus Pueblos, sino q.e si las tienen, se las quitan con
violencia vendiendoles sus hijos, como Esclavos, y haciendoles sus Mugeres [illegible]
y q.e les sirvan, sin pagarles su trabajo, conque se aniquilan los Pueblos q.e
se han fundado a costa de grandes trabajos de los Misioneros; siendo mo-
tivo de q.e no puedan administrarlos, ni enseñarles la doctrina, y consiguiente-
mente formarse Pueblos de los muchos, que se hicieran en las nuevas Conversio-
nes, si los Governadores, y demas Justicias atendieran al cumplimiento de la expre-
sada Ley, y obligacion de sus empleos, y no de sus propios intereses: = Por tanto
por la presente mando a mi Virrey de N. E. Audiencia y Governadores de ella,
q.e en inteligencia del desagrado q.e me han causado estas noticias, cuiden
en lo de adelante del remedio de este perniciosissimo abuso, y castigo de los
transgresores de las expresadas Leyes. Y que en conformidad, y observan-
cia de ellas pongan todo su mayor desvelo, y eficacia, en q.e se de a los refe-
ridos Indios recien convertidos las tierras, egidos, y aguas, que les estan

I have not been to Lüders yet but I will go to day and likewise
to young Gollar about the song, and you may depend upon
trying to get the choicest collection. You did not mention
to me when you was in Bremen if you ever went to see
the young ladies Confirmed, as it happens once every year
which I assure you is a very fine sight for they all sett
crying ready to Break their hearts, and I had likewise the
pleasure of seeing my Sweetheart Miss M, confirmed, and
really it is a very good thing I leave B. soon for I never
loved a Girl so much in all my life; and I have had very
frequent opportunities of conversing with her, as I have
been to their house several times, and perhaps it might
be attend with serious consequences; as I will tell you all
the particulars when I see you, pray scratch out this
part of the letter. I have now told you the news. Kanter
and Augusta Helene intend to be married, ~~[illegible]~~ as he
spends the chief part of his time in her company. I
very often thinks of the happy moments we passed together
on the ramparts smoaking our segar and talking of our
friends in England and all other little nonsense which
old friend I think will never be the case again, but
nothing would give me greater pleasure than embracing
My Old sincere friend William Kelly Hart &c. I assure
you I do not find great pleasure in coming to England, as I have
so long neglected my best friends that I allmost dread to
meet them: but perhaps when I come some of your
friendly counsel will help to chear up my spirits

I have nothing more to say at present Give my kind love to your Sister Anna and likewise to all my friends and beleive me to be

Dear Hartnell,

New York 4th March 1819

— Dear Cooper

Ever since the intelligence of your arrival at Boston reached me I have been anticipating the pleasure of receiving a communication from you, but by Eben's last letter I learn that this indulgence is not likely to be granted me unless the commencement of the correspondence is made by myself, this consideration has induced me to address you immediately in the expectation of being soon favored with a response, you must not dissappoint me.

Eben informs me that your last India voyage was unfortunate & that you have again experienced the unhappiness & ill luck of being subjected to the caprice, stupidity & meanness of a bad & unskilful Captain, I hope the result will not be very unfavourable for you, for it would be hard indeed that after so long & tedious a voyage you should meet with an unmerited loss, but such is life & so various are the revolutions of fortune, dissappointment but too frequently attends our best efforts & most sanguine expectations, however as our destiny is swayed & superintended by an omniscient power we should ever consider that "whatever is is right"; excuse me I was beginning to moralize & that is rather an uncommon occurrence in my letters; Eben can inform you how unfit I am for any thing that bears a resemblance to gravity & sermonizing, 'tis an article in which he sometimes dabbles, especially in his sombre fits & when he is troubled with the vapours, but never suits me.

The Packet Ship Courier arrived from Liverpool last evening, after a boisterous passage of 60

54

days, but brings no news of importance, except some favourable changes in the mercantile transactions in Britain.

You have no doubt heard ere this of the visit with which Genl Jackson honoured our City, he was received with acclamations of joy & all that respect due to so distinguished a military character, spite of the many efforts of his enemies to defame & injure him in the public estimation, our citizens hailed him as an unshaken patriot & a noble veteran, as one who deserved the affection & esteem of every American; To him might be applied the motto, inscribed on the coffin which contained the remains of the immortal Nelson, "Hic palman, qui meruit, ferat."

Should there be any vessel soon to sail from Boston for Calcutta please apprize me of it, as I have a letter for a gentleman there which I am desirous to send immediately, & there is no vessel from this port for India.

I shall expect to hear from you soon, & with best wishes for your health & prosperity

I remain your sincere friend

George

Tell Eben there is a small package for him on board the Sloop Comet, Bradley, to sail tomorrow.

Dear Cooper

Your kind letter of the 24th ulto came duly to hand and would ere this have been replied to but for the multiplicity of business which has monopolized my time. I sincerely congratulate you on the favorable settlement of your concerns with the [illegible] so much [illegible] fortunate [illegible], unmingled with any of that [illegible]; our life is a mixed state of good & ill, pleasures & pains success & ill-luck alternately diversify our existence, and we generally observe that there is nearly an equilibrium in our real joys & sorrows, but the preponderance of our ideal sufferings is weighty, we too often by cherishing anticipated ills become our own enemies & stab at our own peace as deeply as if we were really beset by trouble & misfortune, for as Lord Kaimes observes "when we sum up the miseries of life, the grief bestowed on trifles makes a great part of the account". Excuse my digression I am eternally moralizing without much benefit or any ostensible cause for the employ, and you sailors generally care as much for sermonizing as for a rope-yarn or a sky-sail.

My opinion as it regards Genl Jackson is diametrically at variance with yours, I think his conduct in seizing Pensacola & executing those incendiaries Ambrister

Arbuthnot deserves the elogium of his countrymen the gratitude of all, nor would I wish to see the gallant preserver of New Orleans, the veteran whose life has been devoted from boyhood to his country's service, in his declining years sacrificed for having resolutely freed the world of two relentless ruffians, for having dared to follow the dictates of a noble ardour; but the ~~vox pop~~ "vox populi" is decidedly in favor of him. the long, tedious & contentious debate in the senate & house of representitives eventuated in his glory, and it is ardently hoped by the majority of our countrymen that the laurels which now encircle his brow, hard-earned in the sanguinary field, & justly merited by his chivalric intrepidity & pure patriotism, may never wither from the chilling influence of neglect or be torn from him by ~~the~~ heartless violence of envious calumniators; ingratitude they say, is the prominent vice of republics, but I trust that americans will never forget those of their brethren whose noble intrepidity & ardent love of country shine conspicuous through all their actions & who have essentially assisted in saving the lives the property & enhancing the glory of their countrymen; my pen is running on at such an unconscionable rate that I fear you will consider me too prolix & tedious, but my feelings are always so aroused when speaking of the war-worn veteran & the inflexible patriot that I almost consider it my duty to run on for ever; - I now conclude, with the assurance of my esteem & friendship

Ever yours

George

New York 11th October 1819

Dear Cooper

Yours of the 8th inst is just before me and I observe with much pleasure that you are so mindful of the duties of friendship - although your pen has so long reposed in silence although months have passed into oblivion since you last addressed me 'tis grateful to the feeling to know you could not leave the country without presenting to your absent friend some memorial of your continued regard - for your protracted delay I had assigned no other reasons than your great aversion to letter-writing as Eben has frequently assured me you were not very partial to the employment - and from experience I know how very arduous & unpleasant it is to perform a task which one dislikes.

I am truly happy to hear you have obtained so good a situation and doubt not but that your voyage will be pleasent & prosperous - should your Captain be possessed of more politeness & honesty than the last you sailed with. In addition to the other agreeable anticipations which fancy may suggest you may subjoin the expectation of becoming a pure devotee of religion & an enthusiast for missionary exertions the host of champions who are to be the partners of your voyage will doubtless endeavour to convert you round jackets into bona fide saints and if you are so fortunate as to escape their efforts 'twill be a miracle indeed - although I have heard sailors remark

that they would sooner sail with the d— than a black coat
yet I cannot but presume you have a higher opinion of
these pious gentlemen - in fact where there are so many
saints we may safely conclude that the vessel which bears
them on the deep is safe *without* insurance, the crew secure
without a *doctor* (except a *black* one which is always requisite)
and the doctor efficient without physic, - so without the
slightest fear of dissappointment I expect on your return
to hear that the current of adversity on which you
have long been borne has found its termination and,
wafted by the steady breeze of prosperity, you have
arrived on the serene ocean of contentment & happiness;
few indeed are there on the theatre of existence who constantly
remain the victims of sorrow & misfortune - the imbecility
of ~~mortal~~ human fortitude could but illy support
affliction so unbating, misfortune so continued - some
pleasure must be mingled with our sufferings else they
would often drive us to dispair - the fragrant perfume
of the rose atones for the scratches received in plucking it.
but a truce with sermonizing.

We have almost succeeded in ban-
-ishing the demon Yellow Fever from our city - our medical
gentry have by turns sweated & physicked their patients -
first thrusting the unfortunate devils beneath a mountain
of blankets then stuffing them with salts, Castor Oil, rhubarb &c
as a cook would cram a turkey - hoping thus to exorcise the
demon - but the response invariably was "I know you not" -
the fever would not budge - he cared not for the steam of
Catnip Tea nor regarded the attacks of Castor Oil - remained
quiet possessor of the field - murdered the unhappy victim of his
*malignant* spirit and saw him borne in triumph to his
last & long home at Potter's field.-

Permit me to offer you my sincere
wishes for your health & happiness - may the voyage you
are soon to commence be pleasent in its continuance and
most prosperous in its termination - may you return to
your native country blessed with health & prosperity - I
commit you to the guardian care of a benignant Deity
and ever remain your attached friend

George McLarkin

N.B. I shall expect to hear from you by every favorable
opportunity which may present during your voyage - if but a
short letter 'twill be very agreeable - dont disappoint me.

My Dear Hartnell

I have just received your letter, and hasten to say how much I feel obliged for your kind exertions in procuring the Telegraph for me which as yet I have not received: but suppose that in the course of the Week it will duly arrive.

I have seen the whole of the former Numbers, therefore it does not appear to me necessary to wish for them; and with regard to the Cartas Pehuenches, our Stay here will be so short that it is not worth while taking that Publication.

In the Event of our Sailing from this Port, I shall feel additionally obliged by your taking the Numbers in, during our Absence; which you can forward down on our Arrival at this Port.

63

As it occurs to me the Editors are rather Dilatory in remitting the Paper may I beg of you (being on the Spot occasionally) freshen their Memory.

I send 6 Dollars by the Hand of Mr. Hayden, an Officer of this Ship which I have heard is the requisite Sum, if not Sir you will apprize me how much more may be deemed a sufficiency.

I repeat here what I mentioned in my last, the pleasure I shall feel in serving you in any manner you may think my humble services can be of avail: and under this Impression

I subscribe myself

Yrs very sincerely

J. E. Kirwan,

Let the Paper be sent by the Post directed as you will appoint in Spanish.

Informe que dá el Vecino Dⁿ José Antonio de Cota, delo acaecido con los Insurgentes enla parte del Sur y Loreto. — (año 1819) (Segunda invasión de los piratas que habian saqueado Loreto)

125

1819 El dia 27 de Diciembre pasado salió de esta Front. para el Sur con destino aver asus Señores Padres, adonde llegó el dia 15. de Febrero, y al dia Siguiente que fue

Dias 6 Sefondeo enla Mision de Sⁿ José un Bergantin Español llamado S. Fran.co que iba dela alta California cargado de vinos (Segun dijeron) y que Su arribada fue acomponer eltimon

Dia 17. Enla tarde Sefondeo enla misma Mision la Corbeta llamada Indep. en el mismo instante echaron las lanchas al agua, y sefueron al abordaje del Bergantin Sⁿ Francisco, afin dehacerlo pricionero, lo que lograron alpunto sin hacer ninguna recistencia dho Bergantin, y luego pasaron la Gente pricionera del Bergantin ala Corbeta. En la misma noche isieron desembarco, entraron ala Mision éhicieron pricionero adⁿ Antonio Quartara con todos sus intereses, y dependiente dela renta detabacos del Guique, saquearon la Mision y todas las halajas dela Yglecia, isieron pedasos una Custodia, derramaron los Santos óleos, y junto con otra custodia 6. Calices: 2. Copones. 2. juegos de Ciriales con sus Cruces, y por decirlo de una vez, toda la Plata de que estaba halajada aquella Yglecia (que no era poca) Se llevaron estos.

Dia 18. Despachó elComandante dela Corbeta p.ª q.ᵉ por tierra fueran ala Mision de todos Santos aun teniente con ocho hombres, con el mismo depravado intento de Saqueo, y con Orden de no dejar al P. Ministro de aquella Mision, y recoger toda la Plata que le encontracen, y de echar apique la Goleta recientemente construida, en caso de que estubiese enel agua, y si estaba en tierra de quemarla.

Dia 19. Fueron ala Playa, aexecutar la orden arriva dha, como en efecto lo isieron echandole varreno ala Goleta, que aun no estaba acavada de Aparejar por averla echado al agua el dia anterior.

Dia 20. El teniente de esta expedicion fue arreconocer si la Goleta se avia ido apique junto con dos Soldados, y al llegar ala Playa quicieron forsar dos mugeres, lo que visto por los nuestros echaron mano alas armas que no eran más depiedras, y les acometieron, matando al teniente y aun Soldado, y apoderandose los nuestros de las armas delos muertos, acometieron y mataron al otro que venia con ellos; pasado esto los nuestros sefueron para la Mision, acometieron alos seis que hayi estaban, matando ados, hiriendo a tres

de muerte, y apricionaron al Centinela que voluntariamente se rindio. El mismo dia en la tarde se adquirio noticia de que un contador, y dos Soldados mas dela Corbeta, venian con la contra_orden de que no destruyeran ala Goleta, y si que pucieran cuidado en conservarla, p.ro que al B. y cargas de Plata no lo desacen. Inmediatamente que se adquirio esta noticia, salieron los nuestros arrecivirlos, hiriendo levemente de una lansada al que asia de Cabo, el que junto con los otros dos se rindieron, y estas ordenes de que ago mencion, las vio el mismo que abla sovre esta materia y las conserba ensupoder el S.r Governador de esta Provincia.

dia 21. Los Vaizanos del Sur condujeron alos pricioneros al Real de S. Antonio ignorando si los gravemente heridos que quedaron enla Mision de Todos Santos han fallecido ono; pero si ascegura, que desde esta Mision fueron conducidos por los Milicianos ala de S. José del Cabo.

dia 22. No ubo novedad alg.a p.ro no omitiré el decir que el Alcalde de S.n José llamado D.n José M.a Castro, luego que supo lo acaecido, en Todos Santos, y que los nuestros avian matado, y echo pricioneros, al Ten.te y demas Soldados dela expedicion, dio parte al Comandante dela Corbeta; y distante dela Mision de S. José 12 leguas se puso en camino como lo executo ablando con el dho Comandante. Este mismo Alcalde es el que auxiliado alos piratas con Cabalgaduras, Guias y 200 Reses, aguardiente y quanto han querido, delo que se infiere que este tal Castro, con casi la demas Gente dela Mision de S. José, es mas pirata, q.e los mas piratas.

dia 23. Llegó Correo a S.n Antonio de que los Ynsurgentes desembarcaban, y q.e se encaminaban para S. Antonio, resolbieron los Havitantes de hayi salirlos aencontrar, y conociendo de que estos pudiera ser que vinieran con el Obgeto de quitar alos pricioneros, se determinó que estos mismos fueran conducidos para el Presidio de Loreto, lo que assi se verificó. Los Milicianos y Vaizanaje resolbieron el salir inmediatamente aver el rumbo que tomaban estos Ynsurgentes, y ver si podian atacarlos, lo que no pudo te verificarse por la noticia que el dho Castro comunicó al Com.te dela Corbeta, diciendole: que tropa, Milicianos, y demas Vecinos, estaban alarmados, y recistir con toda fuerza alos que encontracen por el camino. Con esta noticia los Ynsurg.tes doblaron sus centinelas, echaron gente atierra, y hayi se fortificaron, en el alto dela Mision de S.n José que es adonde han permanecido y permanecen estos Ynsurgentes, pucieron un Cañon, y enla Casa del Padre que es adonde se aquartelaron pusieron mas cañones.

dia 26. Llegan a caduaño sin novedad, y el ynformante con ocho hombres q.e le acompañaban llegó hasta la Mision de S.n José, y visto no aber novedad alguna, y hayarse sin modo de poder atacar alos enemigos enla Mis.on resolvio retroceder al paraje llamado Caduaño, para ver si podia juntar gente p.a el efecto.

dia 28. El Ynformante visto que no encontraba auxilios de Gente, Bastimentos, y Bestias deremuda, siendo assi que para los Ynsurg.tes avia todo genero de socorro, resolbio el regresarse al Real de S.n Antonio, lo q.e assi executó.

1.o De Marzo

dia 1.o El Comandante dela Corbeta pasa oficio al Comand.te de armas p.a q.e entregasen alos pricioneros, alos vivos como vivos, y alos heridos, como heridos, y q.e si no era posible el conducirlos hasta el punto de S.n José, la Corbeta iria hasta Todos Santos, para recogerlos, y que si no los entregaban, luego que llegara el Berg.n que avia despachado a Guaymas por armas, pasarian a Todos Santos, y harian desembarco y arruinarian aquella Mision, y despues seguirian hasta el Real de S. Antonio, y harian lo mismo. Vista esta amenaza, y p.a evitar efuccion desangre determinaron el Comand.te de armas, y demas Alcaldes Constitucionales, apesar delos Milicianos, y demas Vecinos que no admitian semejante propuesta, el imbiar por los dhos pricioneros, los q.e ya encontraron enel Camino, ya de regreso, q.e Ord.n del S.r Gov.or para que estos mismos pricioneros, fuesen custodiados

en el Real de S.n Antonio, los q.e haviendo lleg.do adho Real el dia 4 de Marzo, fueron conducidos hasta la Mision de S.n José a entregarlo al Comandante dela Corbeta, lo que verificaron el dia 1 del mismo, no pudiendo menos que hacerlo assi, por la contestacion que el Comandante de Armas y alcaldes Constitucionales dieron al Comandante dela Corbeta

Be kind enough to send me a Sketch of the whole of my Acct with you, including the Pagarés & what you got from Arzate.

Dear Hartnell

I wrote you yesterday enclosing a packet recd f Caledonia. — The present is merely to request you will see Alexd Campbell & get from him such of my Jewellery as may remain in his hands unsold, & also receive from him the value of that he has disposed of. — I enclose you an account of the Articles originally sent to him with an order upon him for their liquidation. — Those things you get from him be kind enough to send me down here by the earliest conveyance that offers, they will all go into any person's waistcoat Pocket; therefore I hope no delay will take place in their arriving here.

Should any letters come to my address you will oblige me by sending down here, as I do not think it is very likely we shall leave this so soon as expected, however you will be better able

80

to judge on this point than me. — As the order for the Vessels sailing must be given from the City.

I will thank you to call upon Black the Tailor & get from him some Cloths which he will make up into a Parcel, they are for Dr Wylie, Coquimbo & I should have sent them to him a Month ago — Let the Parcel be sent to a Person who lives at the top of the Calle de las Capuchinas corner of the Street leading to the Bridge — He is called Dn Tomas, an Englishman keeps a Shop & sells Sugar &c — He will forward the Parcel to Wylie by the first Postman that goes to Coqo. — pay him also 3 $ on my acct which I am ashamed to have omitted paying so long as he gave that sum out of his own Pocket for me, — You will be kind enough to give this your attention the enclosed Letter you will put in the Parcel it contains some letters recd for Wylie p Caledonia. —

Mr Begg arrived last night at ½ past 10 having been only 18 hours on the road — it appears to be his intention to wait the arrival of the Frigate from Buenos Ayres & endeavour to prevail on the Captn to take the Caledonia out under his protection. —

Any letters you may address to me here you will merely say — Valparaiso, — as Mr Blest is so extremely careless with respect to letters addressed to his care, it is adviseable not to continue the usual mode of Directing them. —

Pray ask Castro what he is doing with the Rum & let him send one of the small Barrels to Whittakers for which he will receive the payment 60 $. —

You will shortly be reinforced by a new hand in the City, who Captn Laughton informs me has been sent out for the express purpose of carrying on the Correspondence; — or at least of assisting Mr Bogg in that department who I believe has at present no intention of leaving Chile in the Caledonia, — this however remains as yet in doubt. — You will not forget one Oz. against Bartolozzi —

I am Dr Hartnell

Yours very truly

Jonathan Winstanley

P.S. Be pleased to advise me the moment the Coquimbo Post arrives, & if there are any letters for me or not; it generally comes in the beginning of each month.

Dear Hartnell

I recd yours of 4th this morning the a/ct which you annex I have no doubt is correct, with the exception of an error in the addition of the Debit side of 1$ which will make the Bal to my credit 58$ 4 in lieu of 57$ which you will please to note. —

Not seeing any probability of our getting away I have repeatedly asked Mr Begg permission to go up to settle my affairs in the City, but he appears to be very sanguine in his expectations of getting away in a few days, without however any foundation for the same. —— I trust you will not omit advising me what you get from Arza & let me have his a/ct; 147.5½ I have to a/ct with Mr Begg for the Bal of his Pagare for 800$ & also one in favor of Castro for the same amount therefore I wish to make arrangements for their settlement, Be kind enough to send me down all the Articles you recd from Coq. — I am surprized Edwards & Stewart have not remitted me for that part of the goods they have sold. —

I have to request most particularly that you will impress upon Castro the necessity of his disposing of the Rum

& Gin immediately on the terms I have Mentioned to him viz to exchange them for Almonds to Semir at any rate, this man ~~in~~ When I was in the City would have taken both articles at my own price provided I would receive Almonds in payment. — I shall esteem it an essential favor if you will attend to this personally as I am sorry to observe very little attention has been paid to what I wrote Castro respecting this Business — he says the Almonds are in the Shell, the quantity I want can be broken in a day by employing sufficient Peons, & I am convinced if they are here in 10 days they will be in time, however let them be sent sooner if possible. —— I repeat let the Rum & Gin go at any rate — Semir has Rum on hand; I should therefore be inclined to think he would be glad to take mine on these terms rather than they should be sold at a low rate to any one else & thereby depreciate the value of that he holds. —— Let me know how you have settled with Campbell; & insist upon having my Acct from Whittaker & inform him from me that he does his Business in a most unmercantile manner. —

I remain in great haste

Yours very truly

Jona Winstanley

Let Castro get the Shawls mentioned in the orders enclosed which you will send down along with those from Co°. —

85

Have the goodness to give the annexed Parcel to Dr José Maria Astorga — Castro knows where he lives — —

~~Monday evening 9 oclock — — The Bearer of this will bring down the Shawl & be which I shall settle with him for altogether here~~

Have the kindness to send them p first opp.y that offers JW.

The 40 £ for the journey to Cauquenes, I have already paid McCulloch & he says he will arrange with you about the payment of the whole amt to Loyola.

I owe Bougham 81 £ which you will be good enough to place to my acct. —

I am surprized that Campbell should act in such a shuffling manner, the acct of the Silver I sent you up to recover from him was according to his own papers; Be good enough to mention this to him & if he refuses to pay it take whatever he is agreeable to pay you, & settle the acct with him — he can deduct the amt of the toothpicks, if he is in doubt of its being paid. —

I enclose you a letter to Whittaker open, that you may see in what manner the Account has been settled, have the goodness to take it to him, that there may be no misunderstanding when he pays you the proceeds of the Muslins &c placed with him after I left the City. —

88

You do not say any thing abt Arza's Acct. — I am anxious to know what he pays you that I may arrange in some way or other for the Balance remaining due to Mr Bagg on acct of his Pagaré. — I was in hopes that the Goods now with Whittaker would have paid up this Pagare for 800$. & for the other Bill of the same Amt paid in by Castro I had appropriated for its liquidation, the proceeds of the Shawls &c at Coquimbo but as these have been returned I shall be obliged to appoint some other funds for their Settlement. —

Eldridge Owes me upwards of 2000$ of which I cannot get a rial until the return of the Golondrina, although he has actually received this Amt for my Goods sold by him, here & at Coquimbo. —

I will thank you to send me down the Two Pipes Gin to the address of Mr McCulloch immediately & pay the Carreteros something extra to bring them down with all possible dispatch, — If you can find any one that will give 14 rials p Gallon sell them. —

As regards the Rum if you cannot get almonds for them (at any rate) let them be sold for what they will fetch although at a great sacrifice.

I remain Dear Hartnell in haste

Yours very truly

Dear Hartnell

I am obliged by your favor of [illegible] & note its contents — I am satisfied with Castro's wishes to serve me & have written him accordingly, & have to apologize to him for attributing to neglect the delay which occurred owing to his illness in writing me.

I enclose you a Argas Acct which I have no doubt is correct with the exception of [illegible] in the addition of the Sums to my debit, which will make ~~that~~ amount more in my favor. — You will receive this & place it to the Credit of the Pagare he gave me for 800$ & return that document to him — for the Balance of this, you will have as a security the order I gave you on Whittaker for the Proceeds of the Cambrics &c, Should you however be so situated as it will be inconvenient for you to wait till Whittaker has disposed of the Goods; offer him 5 pCt in addition to his Commn if he will advance you

the Amt you require until they are sold, or give you a pagare which will answer the same purpose & you can promise to keep the note until a great part of the goods are disposed of. — If you can arrange this matter I shall only require to speak to Mr Begg about the 600 $ Bill I gave Castro — which he will not hesitate to credit me with until I return on stating the circumstance to him; — I feel confident you will use your best endeavours to serve me in this instance & I assure you of my willingness to reciprocate the favor at any future period — Remaining

Very truly

P.S. If you can dispose of my two Horses to any Person I should be glad you would do it — the little Black one formerly yours, if you think it worth accepting, I beg you will consider it your own. — The other Lowe promised me he would send to the Regimental Potrero & I hope he will not see it ill used. —

Should Mr Begg think proper to open my Room during my absence you will have the goodness to pass to my credit the Sum of 255 $ for furniture &c. exclusive of the 78 $ already gone to Charges Generales for new flooring, ceiling & whitewashing the room & making new windows, &c —

The acct I have paid myself is as follows. —

| | |
|---|---|
| 6 Chairs a 4 $ | 24. – |
| Bedstead & brass feet | 40. – |
| 2 setts of Bed Curtains complete | 65. – |

The mantuamaker whose House Mr Begg's servant Juan is acquainted with has one of the Bed Curtains, the balance of acct due her you will have the goodness to pay ~ 7 $ —

I enclose the Key of the room which you will keep sealed if it is not required by Mr Begg on the above terms.

Dear Partner

I wrote you yesterday

& beg your particular attention to the contents thereof.

I send this present by Propio to convey to you Mr Beggs request that his servant should be sent down immediately.

I still win the Oz as I came to an understanding with the Patron this morng. it never was his intention to go to Lima in the Caledonia. If that Vessel went there, it was his intention to go in the Fancy — but he has now given up the idea altogether.

The Independencia & Araucano sail this afternoon for Baldivia & the Embargo will be off on Monday —

The Govt appear to have no Intention of recommencing the Blockade of Lima for the present — Await His Lordship's arrival before any thing is Concluded with respect to the other Vessels. — There is no doubt now, that we shall sail beginning of the Week — however you will see what Capt Searle has done in His Excellency.

B has written two letters very strongly remonstrating with him on the impolicy of detaining the Caledonia. —

I have told Castro to pay you the proceeds of the Rum [illegible] of the [illegible] papers which I paid him? — Supposing you have arranged the other to your Satisfaction as you say nothing about it. — Let me know the Bal. to my debit after rec'd the Amt of the Rum & I will endeavour to arrange the settlement without bringing in the [illegible] of Bayetones. I thought I don't see why this sum should not go to my credit. — however as you have put it down as cash rec'd I shall send you such paper as you can pay in without exposing the Transaction. —

Waiting your reply to my last particularly as respects Prado [?] — I remain

Dear Hartnell

I wrote you yesterday, since when we have rec'd the Licence for the Calidonia to Sail & we shall be under way immediately. ——

You will receive by Loyala a Compleat Bed Stead — consisting of Catre Colchon y Colgaduras which I consign to your Care for Sale on my Acct, the lowest price is 75 $ what you can get more for it so much the better — this will tend to reduce still more, my Acct with you & I hope you will be enabled to let the Bal. (which will be trifling) remain over until my return, — however if you are pushed for Cash you may put it down as so much paid

to me & Mr Begg will allow it to go to my Acct.

Skirving has been troubling me abt the Rent of his Whouse in the City & says he paid it up to the 15 Ulto & gave the Key to Castro long before that period had elapsed informing him if the Rum was not out to in that time he would have to pay a months' Rent As there was plenty of time to do this, I hope Castro has not incurred this, as you are well aware this is a losing concern & what expence can be saved so much the better, —

I wish you would write Skirving about this as the Owners of the House in the City are applying to him for further Rent; from which I fear the Key has been detained, although Castro writes me in one of his letters that he was about to remove the Rum to avoid keeping the Room beyond the time paid for by Skirving —

I enclose you the letters you sent me sometime ago for the Whaler which were too late, & also one of my own which I shall be obliged by your forwarding by the first opportunity. —

Should any letters arrive from Coquimbo for me you will have the goodness to open them; All others you will hold in your possession until my return. —

I wrote sometime ago to Rio for a Pipe of Port Wine should such an article come to my address you will do the best you can with it — I intended to have enter'd it for my own use which Dr Carlos would have allowed — perhaps you can do the same & we will divide the profits.

Have the goodness to tell Dr Carlos

Dear Hartnell:

On leaving Valparaiso I wrote you respecting the settlement of the two Pagarés for 800 $ each. I was in hopes with the aid of the funds I left at your disposal that you would have been able to arrange for their payment without passing either of them to my debit. — If I mistake not our account stood thus.

| Dr | Hoinspanles | per Contra | Cr |
|---|---|---|---|
| To Arza's Pagaré | 800.. – | By Cash from Arza | 157.. – |

| | | By Balance | 76.. 1 |
| | $ 1840.. 3 | | $ 1840.. 3 |

previous to my sailing I had occasion for a certain sum of money & I requested Mr Begg to advance me so much, which he assented to, but as

he had no ready Cash he requested me to get it from any of my Friends in Valparaiso & draw upon him for the Amount, — I obtained the needful from Roskell but he writes me by this Schooner that on presenting the order it was refused payment & the reason assigned was, that I had already exceeded the Amount agreed to be drawn for

As this was the only Note for Cash which I drew on Mr Begg, I can only account for this Bill not being paid by supposing that you had been necessitated to place one of the Pagarés to my debit, notwithstanding Whittaker had promised me the realization of the Property I left in his hands within a month, which had that been the case would have enabled you to provide for it without any inconvenience; however I doubt not you will be able to clear this business up satisfactorily as I assure you I have felt extremely hurt that my name should be brought into disrepute by such a circumstance, particularly as you are aware I had sacrificed in the sale of the Rum on purpose to avoid it. —

I have to beg you will do me the favor to send me on the return of the Schooner or by any other Conveyance which may offer, a few of the latest Chile Papers Gazeta Ministerial & Telegrafo without breaking any sets of this last Paper which I hope you have all compleat, If I can return the favor in any way I shall be happy to do so, & should any thing offer by which I can be of service to you in Lima I beg you will command (Dear Hartsole)

Did I consult your deserts, my dear John, instead of my own feelings, I should not make this attempt to send across the boundless seas, and the fathomless ocean, against wind & waves to inform you of the welfare of your friends in these regions, to tell you that we all remain as you left us, in health; to tender you our sincere wishes for the prosperous progress and successful issue of your present voyage, for your continued health while engaged in it, & for your safe return in due season laden with wealth & honor, laboriously, but honorably & honestly won. for in good truth, my dear brother, you must acknowledge yourself most lamentably deficient in performing your epistolary duties. indeed your reputation for remissness in this employment has become proverbial. I really do not believe that there is a letter of three lines extant in your hand writing! and yet more than half your time for the last fifteen years has been spent abroad! you have, in that period, traversed more than half the globe, met with a variety of incidents, seen many of the wonders of nature and art in the habitable world & of course have never been at a loss for materials for your letters. had I been so long absent, had I seen so much of the world & been so much exposed to its vicissitudes, the paper-makers would have grown rich on the profits of my exertions. reams of paper would have been consumed and pints of ink wasted, but whether the world would have benefited is another question — & one which I shall not presume to answer —

As you are [illegible] & more used to the operations of the handspike than those of the goose quill and as I know scolding would be of

avail. I shall bear your vexatious silence as many a wiser man bears the troubles he cannot prevent, with philosophic fortitude!

We had an arrival some months since which spoke your brig 50 days out. the friends of the missionaries rec'd letters which informed us that you were "all well". this intelligence was very pleasing, but it would have been much more so if we had been informed of it by a letter from yourself. since then we have heard not a word from you. the Archer, Capt Edes by which I send this is the only vessel that I have heard of since you sailed bound to Canton. some others may have escaped me, but I believe not. — I hardly dare to hope that this will ever reach you, but as I can easily imagine how grateful must intelligence be to you from your friends, and as there is a ~~hope~~ probability that it may reach you I venture it — — —

Your eccentric cousin Lucy left Dorchester for Philadelphia sometime in Chas last, & is now there engaged, I am informed in a school with her mother. it may gratify you to know that I saw her several times before she left & that we parted friends. this event you may be assured, I ardently desired and I believe she was as anxious about it as myself. ~~there is~~ a pleasing, yet sad emotion always thrills my heart when I think of this wayward girl. a tender feeling is connected with every recollection of her. my mind oft dwells with fondness on her image & I delight to recall every little incident to my memory which has any relation to the little dear capricious being. — we were separated violently before emotion had become a settled ~~feeling~~ principle & before the germ of passion had emanated a reciprocity of sentiment. but I can never cease to remember her with a tenderness of feeling which might have been ~~endeared~~ matured by

time into a stronger feeling of inextinguishable love — — your friends at D. and Roxbury are all as you left them — Capt Johnson was I believe on shore when you left, he has since gone on a voyage to the W. To,

Mr. Wm Hartnell

Dear Hartnell,

Since my last I wrote befor you sailed (enclosed in a letter to Mr. Barnard) I have not had the pleasure of receiving any of your favours. — I must say I was rather disappointed when I heard that Lovejoy was not coming in the House, He is at present in the City & is engaged as a Clerk to Cadiz the Auctineer at present, & as soon as he learns the ~~language~~ Spanish language he will begin the business in the Port, he is in hopes of doing very well & I hope he may for he seems worthy of it. — Since Mr Barnard came up from the Port we have all been very busy, what with letters & Accounts &c &c &c &c. — as usual I have had the least to do. I like Barnard better & better every day — but still I have my doubts remain — respecting him as you will recollect at the time when I was about to enter the Escolta Directorial —

no importa he is a very good fellow, & I like him. —
He has only raised my salary 5$. — Lowe continues as as usual, gains (I think) more favour, he is going to Valpso in a few days on a visit, to whom, I know not — —
In the last revolution in Juan Fernandez, Nicholas Carrera was killed in an attempt to get the government from Pallacio who was sent governor from Valpsº —
I suppose you will have had the honour of a visit from Cruz the late Governor of Valpsº – before this reaches you —
Zenteno is at present governor of Valps — Rodriguez is not in office at present – Vial is in his place and also is Minister de Guerra — The Indian is finally condemned & it is said they will commence to sell her next week, the funds to be held by Government until news from the British Government arrives — Your goods in my charge does not seem to go off well — I believe I shall be obliged to keep them for myself, as no body will give near the worth of them — Should any letters arrive inclosed to your house in Lima for me I should be much obliged by your forwarding them as I have never yet had a letter from home — —

Remember me to Mc Culloch, Castro, & any body else I know, not forgetting yourself & I remain Dear Hartnell

Yours truly

Edwd J Hardy

Dn. Manuel desires to be remembered to you; also Mr Lovejoy

Peña is going to give a grand fête in the late House of John Hore in the Tajamar, to commence at 9 a.m. Breakfast, Dinner, Tea & Supper — Changes of Shoes & Stockings for the [illegible] it was to have been yesterday but as it rained very [illegible] is put off till the beginning of next week — [illegible] have got into the Sala again, all the Sugar Lots — Haigh gone & left his Washerwoman with Child, so it is said, however it is true she run away with a ~~good~~ great many of his Clothes before he went, away & she could not be found — about ~~a three days~~ a day or two before he sailed Dn. Manuel tooke her in the Street one night about 11 O'Clock P.M. to the ~~Castle~~ Prison, the next day tooke her before the justice, when she said the reason for taking the clothes was that, he had made use of her body & not paid ~~her~~ for it — He went away ~~frightened~~ thinking he had got her with child & that they would stop him frightened before he got off to make him pay for it — Write me soon & a long letter: do not forget —

Dear Hartnell

I was very sorry to hear that you have been so near deaths door, but I can assure you I was not much surprised, for when you were here, (& I hear you have been the same, since) you were not one of the most abstemious, from Spirituous Liquors - from what you must have seen whilst here, Mr. J. Hodgson, ought to make you a little more careful - and altho' you may be able to drink only 5. 6. or 7 glasses & night ~~yet~~ without feeling intoxicated, yet in time it will have effect on your constitution sooner or later, and will show it self one way or another, & besides from all accounts the climate where you are will not allow of your making so free ~~with~~ as when you were here - let me persuade you to leave off ~~and~~ drink more moderate - Now my dear fellow I have written so far, and have read it over, I almost think you will be vexed at me & will say, "damn him does he think that I am a fool, that I am not able to know what is right & what wrong." but I hope you will not take it in that light, read it & consider that we are old friends and that we have lived together, & likewise drank together - - I suppose you will have heard all about our old friend Lowe long before this reaches you - however I will give you a short history of the Case in few words -

He fell in love with Mrs Peters and was so attentive that Mr P. told him he was too much so - which made him so unhappy that some say that he shot himself - - The Mother of your ~~intended~~ was wife is dead - so you see your old friend drop of the stage - This will be delivered to you by Mr Wyld, who I recommend to your attentions, he is a good sort of a fellow & I wish he could have remained here & the other, to that is here have come to you. he is good steady fellow, tho' he has begun to follow bad examples, such as Smoking a great many segars, tho' I believe not so many as you do - You ought to keeping steady as he is. for if not he will very soon follow, what he sees others do - I really do not know what to do with your goods &c as I cannot get rid of them at almost any Price - but will do my best for you.

145

Winstanly's brother, I suppose will have reached you before now - he is a real Gringo - or Yanquy, tho' I believe a good fellow, at least as far as I know - he will tell you all about poor Lowe — Mr. B. goes to Valpso. I believe on Thursday - to dispatch the La Plata, whose orde. a Arica ó a el Callao - Your Girl has often promised to write you but never yet have been so kind. You have now been a long time in Lima & have neither written to Lovejoy or to me. — Pray write soon - How goes Miss Lynch, the famous miss Lynch that you talked about so much here. - give my respects to her. — Write me soon and a long letter. —

[illegible]

The Copartnership which exists between us will we hope be placed on your arrival [illegible] the foundation to your future prospects & happiness in life – if such be the result of this mission we [illegible] the proud satisfaction of advancing in the world those whose faithful and zealous services for the good of our establishments merit our acknowlegements and support. —

Next to permission to remain in the country, your fortune will depend on your own exertions, in which we have [illegible] confidence that nothing will be wanting to crown them with success – The introductory letters which you carry we hope will secure you a good reception & pave the way for the extended operations which we contemplate. — We apprehend that you will at first have difficulty in collecting produce in any quantity as the commerce of that country [illegible] to a very limited extent and the Imports have been proportioned to it – you will consequently find that to force it beyond its usual limits you will require the aid of ready money which is the only medium to [illegible] the balance of Trade – You will bear in mind that a loss will undoubtedly be sustained by exchanging money for Tallow at 26 [illegible] which would bring it to 52/. to 55/. p. Cwt. put down in

England, therefore it can only be taken in barter for goods, on which 100 to 150 p Cent profit should be gained in order to make it a saving business — For Hides cash may be paid if they can be had at as cheap a rate as we are given to understand, to wit 2 to 4 rials each or even at a higher price, and we would point out to you to make your contracts for Tallow in exchange for goods and for Hides in part goods and part cash, provided you cannot do it for goods only — There is also the article of Horse hair respecting which you have verbal instructions and likewise Manteca de Chancho & Grasa for this market of which you are fully informed — We believe you will also be able to meet with fur skins & in the note accompanying this you will find them mentioned — Sheeps wool if of fine quality may be a profitable remittance when light stowage is required to fill up a vessel and this article you will also find in the note referred to —

We anticipate some considerable expence in the first formation of the Establishment, such as the construction of houses or sheds where the produce will be collected and prepared for shipment and in order to avoid expences which are not imperiously necessary we would recommend you before laying out money in this way, to select one or more central places convenient for embarking the produce with safety and facility and there erect the Edifices required — [illegible] the produce scattered in different points but rather pay a land carriage to have it all together near some safe and commodious bay where a vessel can lay with security —

This will greatly facilitate our operations & most likely reduce the rate of freight — You will be particular when you write us in stating the places at which the produce is collected, its quantity and quality and the description of the Bays or Ports where the Vessels must touch at to receive it — You must be aware that it will be attended with an additional expence to charter vessels for an undefined voyage & therefore you will be the more convinced of the necessity of having fixed and appropriate places for the reception of the produce. In the selection of these places attention must be paid to the seasons, winds & currents which prevail on the coast and the nature of the produce which can be had in the greatest abundance in the vicinity — for example the place where the vessel first begins to load must be where the heavy produce is laid up & the last point where the light produce is to be found. —

You will give us particular information of the description of goods consumed there, and to what extent the consumption can be carried. The articles of [illegible] de la Estrella and [illegible] of which we will always be able to supply you at a cheap rate endeavour to bring into use as much as possible & also all other kinds of English manufacture in which we must take but a national Interest —

On the return of the John Begg we expect you will be able to give us encouraging hopes of a full Cargo for the Caledonia by the time she can be with you — we look for her in all July & shall have her ready to send down

on the first intelligence we receive from you — as she will carry her return Cargo to Valparayso and there tranship it for England, you will avoid if possible ~~shipping~~ loading more Tallow than will serve as Ballast, but endeavour to fill her up with the articles pointed out for the European markets—

With our sincere wishes for health and every wished for success

We remain

Gentlemen

Yours most truly

In regard to insurance on the property shipped from California we shall write to England to cover it as interest may appear and therefore it will be necessary that you should lay a profit on the Invoices of 25 to 50 ₰ Cent say to charge Tallow 12 to 16 rl. ₰ qq.l more than it actually cost, and Hides 4 to 6 rl. more than you pay for them - and other articles in the same proportion.

Take 6 Bill of Lading for the Shipments you make and forward 2 ₰ the Vessels and the others by the next opportunity you may have.

As we have no doubt of your being able to establish yourselves in California, we conceive we would run no risk in sending you ₽ a Vessel of 150 to 200 Tons in all June or July, to carry away the produce you will have collected between the period the John Begg leaves you and the time the vessel alluded to can arrive. You will therefore in anticipation be getting together in some safe point a Cargo either for England or this place — if for this — Wheat if to be had at 2$ to 20 rs. ₽ Fanega would we should think be a safe article as none can be expected this year from Chile — but in succeeding years it will not be safe as the difference of freight will be too great —

If you find Hides plenty and can cure them well in so short a space of time you may prepare a Cargo for England but this we leave to your own descretion.

We remain

Yours truly

— Note of Produce —

| | |
|---|---|
| Horn Tips | will always pay in England and will bear no damage. |
| Horns | are more valuable than the Tips only, but the space they would occupy might make them objectionable, unless you have no produce to fill up. — |
| Deer Horns | we should think might be sent to England with advantage & to save stowage should be cut into pieces, but care should be taken in cutting them that the valuable part be preserved. |
| Horse Hair — | if enough of the tail can be had take none of the mane or short hair as the longest is preferred — the white hair is the most valuable and should be kept seperate — to save stowage it should be plait and compressed with bandages & then put into hide covers — the price in England is 8d to 11d ₽ lb Duty 20 ₽ Cent on valuation. — |
| Hides | the Ox are the most valuable, the Cow & Bull not so much so by 20 ₽ Cent, beside the smallness of the Cow Hide which by purchasing at a certain rate ₽ Hide may be a matter of much consideration — Duty 10d ₽ Hide |
| Horse Hides | are worth in England from 5/ to 7/6 ea. & pay the same duty as Ox & Cow to wit. 10d ₽ Hide — If you find a scarcety of Ox & Cow a Cargo may be made up with Horse — |
| Deer Skins | may also be sent — duty 4d ₽ Skin |
| Fur Skins | You will see by the Prices Current are at a high price — but their quality is difficult to choose — however they may be sent. |

Sheeps Wool – Wool of all qualities pay 6d ℔ duty – therefore only the fine will do – a few Packs may be sent on trial –

Tallow – duty 3/2 ℔ Cwt – the breakage upon a long voyage may be calculated at 10 to 12 ℔ Cent & 12 ℔ Cent the difference between the Cwt & quintal – to England the freight will not be less than 12/. to 15/. ℔ Cwt which with charges will make it stand 55 to 58/. ℔ Cwt, allowing that it cost 6 Dollars ℔ qq.l & not more than 50/. ℔ Cwt can be reckoned on for its price – however if you are obliged to receive a proportion of it, a market must be found for it – It will sell in this place to a profit but not in great quantity – The Deer Tallow should be kept separate –

Grasa, Manteca de Chancho, Soap – Cheese, Butter – Hams – Tongues & Beef and Pork may be made valuable articles of commerce to this place.

Dear John

I write this merely for the purpose of saying that I am still in the land of the living & that I am not unmindful of the promise I made before I left Boston to let you hear occasionally from me; I have been as busy since I have been here as ever you was in the most tremendous tornado that you ever weathered; I have commenced my labours in the morning at six & ended generally at ten in the evening, when I have gone to bed more than half tired to death. if I am compelled to keep up this tune long, heaven knows how I am to stand it, for I don't. I must wear out in spite of fate. - however I have got into a good living business & have the prospect of its continuing so as long as I behave well & a kind providence smiles upon me. I shall probably be in Boston in the course of ten or fifteen days, when I hope to see you & have some chat. I am now in great haste, very much fatigued & sleepy, but am notwithstanding

Most sincerely yrs

Dear Hartwell,

I send this pleasure from La Purisima informing that you would get there about from 2 to 300 skins of tallow, he is a most excellent fellow the Padre of that Mission, tell the Capt that there he will be able to get as many hams & vinos from the Padre as he likes he has some Muskets which he wants our old Steward to put in order, he wants a little of Cannon powder as he has very little to make rockets for the Church, which I hope you will be able to spare him, you will also get there a quantity of Hogs lard providing you will be able to make a shift to get some barrels. At St. Ennes I have not been able to do any thing as the Padre there wanted to treat for Tallow & hides & to receive the same in the Mission & for me too to pay for land conveyances and settle with the arrieros, it is a Mission that can supply at least as much hides & Tallow as the Purisima, I would recommend you to call on him as it is only about two hours ride from the latter place & see what you can do with him, I believe he has at present a good deal of tallow & also hides. Since my arrival here I have been informed by several, that the best way of curing hides is to wash them at first in Salt Water that is to say such of the Missions as is near the Sea side & after streaching them to through a handfull of Salt over them, & such of the Missions as is not near the Sea to wash them in fresh Water & after stretching them to through as I have already said a handfull of Salt on them & when dry to turn the hair inside, that is [illegible] the double

Dear Hartnell,

I had this pleasure yesterday from St. Luis enclosing a Note & letter from Padre Luis, here the Padre is waiting the arrival of the Prefecto to form a Note of what they want, In coming to St. Luis you better acquaint them here, as they will send you a man as Pilot for this Port which, they say is very good. You may calculate on getting here from 2 to 300 Skins of Tallow as also a good quantity of Manteca de chancho providing you are able to make a shift to get some barrels — As I mentioned in my letter of yesterday, it will be necessary to pay a good deal of attention to the Mayor Domos of the difft. Missions, here you may calculate on upwards of 2,000 hides yearly from what the Mayor domo says, however the Padre does not like to say more than 1,500 as he is not sure, however from the quantity of Cattle they kill yearly I should suppose they could assemble 2,500 hides

I received the Captn's Letter this Morning & respectg. the man he talks of, giving Credit to, I have no objections in such articles as Second Cloth of which we have a great quantity of 2 —, I am going after dinner so far as St. Ennes & tomorrow to St. Barbara where I shall likely remain a day or two; the Padres sends this herd

respects & hopes soon to have the pleasure of seeing you; hurry as soon as possible to the Southward, & let us get the Brig of — do make a shift & get some Barrels for the Hogs lard as I should wish us to make a good beginning in particular with the chief — With my best respects to all the *Rascals* I left behind, I remain

18th July 1822

Dear Hartnell,

The last I wrote you was from St. Gabriel, in which I mentioned several things, that I dont recollect nothing about at present, only respecting the necessity of my going in the Brig for this ship for the purpose of getting a Craft for this Coast as without one we cant do nothing & to see that every thing is brought that is suitable for this Country — As you come along the Coast get from the Missions patterns of such things as cant be well explained, sell of the Cargo as much as you can & get as much Tallow as possible as after passing the Purisima, you will get very little, as there is & will be so many vessels to leeward by the time you come, that hardly a skin will be had If I go in the Brig we will require to look out for some trusty persons for St. Barbara & the Pueblo, to sell & receive in bew hides & tallow &c — In coming to leeward you better take out of each cases patterns so when any person comes on board you have nothing more to do than to say that is the size & quality of this & the other, this I know you will do without my telling about it If I go in the Brig I hope to be able to pick up enough of staves for the Cooper, barrels &c as things will come cheaper that way than cutting up wood in this Country & loss of time — There are one or two Coopers englishmen in this Country that wants employment & I should think the Salting of beef, ought to be a very profitable business in particular when the Bullock is fat so as to get enough of Tallow out of him, & a good hide in

193

On my arrival at St. Juan Capistrano I found the Lady Blackwood Supercargo on Shore, & on that account I had very little opportunity of speaking to the Padres & what little I did they appeared to be very independent saying that they could not nor would enter into our Contract & as to hides that they would require them all to repair their church which was destroyed some years ago by an earthquake, however I expect to see the day that they will be glad to get a purchaser for both their hides & tallow — the above ship is expected here tomorrow & in a few days St. Andres & St. Henrique, this is the Devils own hole I think with all Monterey is the best place yet — At St. Luis Rey you may calculate on 1,500 hides yearly as to this year they cant give us any tallow, as they as well as several others has ordered things from St. Blas, which they expect very soon & if they dont come this year they wont take them as they know they can get them cheaper from other parts —

For the last mentioned Mission is the Iron @ eleven dls which you will keep for them — From the Mission of St. Diego you may expect 700 or 800 hides & likely 1000 yearly so that from the Soledad here without including St. Ennes St. Fernando & St. Juan Capistrano you may at least calculate on 16,000 hides yearly & if you have succeeded any thing well to the Northward & with the Particulars I think we will be very little short of 30,000 a year if not more, let me hear from you as soon as possible & if you can do without me I dont intend to come

overland farther than St. Gabriel the Port of which is St. Pedro, however if you do want my assistance I shall come as far as St. Barbara; Take down every thing that may occur to you & get patterns of every thing that the Country produces. say how soon you expect to be at St. Barbara, hurry & let the Brig be despatched — for this Mission they want the following articles ½ doz Womens Stockings, 2 Thousand Needles assorted, 2 frying pans, 1 Grid iron, 50 lbs Nails assorted, 2 doz flammeus 1 doz. Cabo blanco, ½ doz. locks, ½ doz. Combs marfil, 2 Chocolateros de Laton, 1 doz. tumblers large, 2 Hats, 1 Ream paper, 20 Dollars worth of fine Segars, 2 lbs Aceyte de Almendra, 1 Quintal Sugar, 1 Bag Cocoa, 2 Arrobas of Rice, 2 lbs Cinnamon, 25 lbs Palo Brasil, 2 lbs of Snuff. I am putting down things here which you likely wont have by the time this comes to hand they Padres says that to Estudillo they wrote about the very same things that is put down here Let me know for first opportunity what quantity of tallow you have got on board, what quantity you expect to get to the North & how much the Brig is likely to take or carry of Beaver skins for Don & he will pay we can get a good number yearly as well as Otters — D[illegible] have I had yet — With my best respects to all my friends — I remain

From what I can learn & see this Port & Monterey are the only two in Winter that a Vessel could load or discharge, let the Capt examine the Coast well as he comes along, so as to be able to give Mr. Begg a good description — Do the best you can & let us see one another as soon as possible what I have said respecting the hides in a former le as to having a little salt on them when newly ski I wish you would enquire about it to me it appears a good plan it eats away all fat &c that is attached to the hide —— HMcC

As few of the Missions in my route are inclined to sign any documents for any time, I would recommend you as I have done to explain to them what expenses we are to be at in building houses employing a Vessel always on the Coast, agents &c and that without they always give their Word, that the hides will be for us for that time, we cant on uncertainties remain in the Country — I know several things I mention to you, that I have no occasion to do it; however when a thing occurs to me I cant let it pass without putting it down, as for tallow Soap &c providing we stop in the Country we can get more than we can have a Market for — Let me know if you have receiv my letters dated St. Miguel — St. Luis — La Purisima — St. Barbara — St. Fernando — St. Gabriel ——

Dear Sir

This opportunity having offered, and the notice so short, that I am at a loss what to say, as it is nearly a month since I left Monterey, at which time Mr. Hartnell had not returned from his trip overland to St. Francisco, since which I have had but one letter from him, as he is gone as you will see, by the enclosed to St. Fran[cisco] with the Brig to take in some Tallow — Enclosed you have Copy of a Contract entered into with almost all the Missions for 3 years, from the beginning of January 1823 — I allow we can get more than 30,000 [illegible] yearly, providing we wish to take the same, Hides we can only calculate on from 25 to 30.000 yearly, as they consume in diff.t ways a great quantity as for Otter, Bear, Deer, fox skins &c we can also get a great quantity of — By the Contract you will observe, that providing all the Missions enter we are obliged to take 25.000 arb.s yearly and [as] many hides as they can procure, as to the other Articles mentioned in the Contract, we are not obliged to take unless we like. What will be a good business providing you approve of our remaining here, is the Salting of beef, as in buying a Head of Cattle they can be had for about 4 Dollars each, and Monterey is a most excellent situation as in Summer it is colder than in England, and plenty of Salt & Salt-petre is to be had a few leagues in the interior, and as several things will be wanted for this establishment as well as a Coasting Vessel, & sundry other things, therefore if I can I will pay you a visit this first trip, having also a good deal to say respecting this Country — — —

What will be a good business providing you approve of my remaining here is the salting of beef, as in buying a stall of cattle they can be had for about 4 Dollars each, and Monterey is a most excellent situation as in Summer it is colder than in England, and plenty of Salt (& Salt petre) is to be had a few leagues in the interior, and as several things will be wanted for this establishment as well as a Coasting Vessel & sundry other things, therefore if I can I will pay you a visit this first trip, having also a good deal to say respecting this Country &c &c

Retake of Preceding Frame

you will no doubt think, that the prices we give for hides & tallow for the 3 years is high, however I can assure you there are Ships on the Coast at present offering 18 & 20 rials pr. arroba of tallow and an American ship has arrived at Monterey direct from Boston offering 12 rials for hides & 4 Dlls. pr. 100 horns & other things in proportion, but as the Missions in that neighbourhood, had agreed to the Contract, he was obliged to go from there without doing any thing; there are & has been so many Vessels on the Coast this year, that the peoples expects to get whatever price they ask for their produce ——

The consumption of British Manufactured goods is very trifling, if we had money enough we could have loaded the Brig long ago, but owing to so many vessels on the Coast, we sell but slowly, however I expect it will not be so from hence forward, as owing to our Contract very few Vessels will come to this Coast during that period.

I expect to hear shortly of Mr. McCs. arrival at Monterey from St. Franco. and then I will return overland as far as St. Barbara or La Purisima to meet the Brig. &c.

We have got with a great deal of trouble, permission to build a Store here & another at Monterey for to receive that produce we buy —— it has cost us a good deal of trouble & loss of time to be permitted to remain in the Country on account of our Religion as they Padres expected that we would consent to be Baptized &c. however we convinced them, that we could get that ceremony done to us without coming so far as this, so that by consenting to go on our knees, taking off our hats &c. &c. on occasions we have settled all — By the Brig which I expect in a month from this date to ~~be~~ have all the [illegible], you may expect Samples of every thing that this Country produces

I am afraid she will not have a full Cargo this trip, however it will not happen so in future, as the Cargoes for her or any other that may arrive, will be ready to dispatch them in an instant; the vessels have on board this ship a good deal of Manteca de Res as also de Puerco providing we can get barrels enough to put the same in — We were two months on our passage from Lima — By having a good Coasting Vessel, we can always make one trip a year to San Blas, which is only 7 or 8 days run from here, with tallow where it will always command a good price ~~at~~ from what I can learn, the best time to go there is in the months of Nov & Dec, a time that very little is doing here; & when several things can be got there is wanted for this Market — I have written to an acquaintance of mine who has lately established himself there, requesting to acquaint me what articles of this Country produce is suitable for that Market with prices &c — A Brig arrived a few days ago from Monterey, bringing the intelligence of Dn Antonio Cots arrival from Callao in a Ship called the Clarinda, but as Wadnell has not arrived there from the North, I have not been able to procure ~~[illegible]~~ any letters or notes — It is now twelve o'clock & as I have received a message from Capt Ma[illegible] ... in about two hours & the distance from here being about 9 leagues to the beach ~~[illegible] [illegible] [illegible]~~, I must conclude my wishing that this may find you ~~in good~~ enjoying good health, Comfort & happiness — I remain

Dear Hartnell,

All your three favors or letters from S. Gabriel has come duly to hand & note their contents, ~~I think the terms with the Mission of S. Gabriel will do~~ - One of the two documents you have enclosed & the other will be presented to Mr Begg, I am happy to hear that you have succeded so well, or is likely to do so at S. Gabriel As to the wheat of S. Diego it has all turned out so bad that after cleaning at it for two days we were obliged to get the Padres to take it back again, therefore dont calculate on getting any here, & if you do go to S. Luis Rey be very carefull as they have wheat 3 years old there, however they have got plenty of this years wheat, examine your wheat & see that it is not the least picked, as if it is you're better leave it over here than send it to Lima —

As to Jose Anto. I am at a loss he is not worth much make the best bargain say from 3 to 400 yearly —

I believe he is a very honest Lad —

Attached you have 3 bills of Lading one to go by the Sir francis & another by the Claudine & keep the other Write me by the Brig & state & give me all the particulars, you have also copy of disbursements

Invoice of Cargo [illegible] on board — a Signal has been made that is a Gun fire from the Brig that all is ready for Sailing, therefore I most conclude by wishing you Well as well as my Countryman

Amigo: aunque su conducta para con=migo ultimamente me ha dado bastante motivo [illegible], nunca llegue a pensar que hubiera V. ~~[illegible]~~ tenido la [illegible] de [illegible]me el importe de una cosa que antes me habia regalado; pero ya estoy desengañado y veo claramente [illegible] [illegible] facil hacer professiones de amistad que no cumplir con los deberes de un amigo. Lima January 20th 1823.

Mr. W. P. Hartnell

Dear Hartnell. I have before me yours of 22nd October received 9th inst. p Sir Francis Baring, and note with much disappointment the small progress you have made in the disposal of my adventure p John Begg, however I am satisfied you have used your endeavours for my interest, and I only have to say I hope you will on receipt of this sell off any thing that may be on hand and remit me the proceeds in a bill on John Begg & Co. with the regular premium given for cash with you. – I have received from Mr. McCulloch as p your order one hundred and fifty five dollars, and I hope to receive a like sum p Prince Young daily expected from your quarter.

By the John Begg I did not receive a word from you, and I consider myself ill used, as you must remember promising to write me. – Mac says the reason was because I did not write you by the Baring, now this appears strange indeed to me, as we never expected you to live the passage down – however I will not dwell on this subject, but as I before told you if you wish to keep up a regular correspondence

with me as far as regards our business and domestic affairs I shall always be proud in informing you of all the novedades which may take place with us — but you on the other hand must do the same, and not as you have began in sending seven lines — and sign in haste — as we know you went down from Monterey to San Diego to despatch the Brig, and if in that space you could not find time to write me fully, how can you suppose I in my situation can find time.

You say you sent me some small presents p John Begg, and I beg leave to state I never received them — Mac brought me a skin and three bows and arrows for which he gave himself credit, in returns for shot powder &c. given him on leaving this, I have mentioned the circumstance to him, and you must touch him up for breach of promise to deliver your presents. In future should you send any triffles be sure to put my name on them, if not — he who gets first on board takes them —

Since your departure from this many changes have taken place in Government, of which you would be informed of by Mr Logan, and of those taken place since his departure I must beg to refer you to Mr Hugh McCulloch, whom we have made quite a polished gentleman of since his arrival — I assure

you he cuts it fat in our city and his company is esteemed by every British merchant, he wears the title of "California Ambassador" and believe me your situations and prospects are looked upon by all adventurers to this side, and no doubt if you succeed in procuring two or three good cargoes of hides, and can get them safe home your fortunes are made, and from all appearances it seems clear, the way is well paved, and although you have been unfortunate in the first attempts, it will all be covered if you succeed in the hides – the proverb says "a bad beginning brings a good ending" and you have my prayers that you and your companions may soon be able to return home highly repaid for your labours — having got so far, I will turn to a new subject — the horses which Castro gave you previous to your departure, and afterwards demanded payment for, and which you ordered me to pay has died a natural death, as I laughed him out of it, and he has now forgot it — Our establishment since the arrival of the Caledonia has increased, having received a Mr Boardman & a Mr Wallace, the latter a regular Scotch skin flint, & the former a good fellow and jovial companion – (with brass & good connections) has Patron [illegible] plenty to do, but at one period since your

departure we were completely at a standstill – he enjoys most excellent health as well as the whole of us –

Our latest accounts from England are twentieth August when nothing new has taken place more than the horrible circumstance of Lord Castlereagh's cutting his throat, and of the Marquis of Wellesley being appointed Prime Minister

Our Government have at length taken a step towards the acknowledgement of the Independence of these Countries, by allowing their vessels to enter into the Ports of Great Britain on paying the same duty as English bottoms – A loan of one million pounds sterling has been granted by individuals in London to the State of Chile, on paying six per cent interest – the m[illegible] of this is to push the growth of hemp. as it is rumoured a w[ar] is likely to take place between England and Russia, per last accounts it was selling at 79¼ and the Columbian 83⅞ – in my opinion these prices are very high when we take into consideration the very disturbed state in which these country's are still in.

By Mac you will receive a doz bottles Soda Powders & a [illegible] of which I beg your acceptance – and I beg if ever I can be of service to you in procuring you any things here or from England that [you] will only name them, this is not a compliment my friend for I am earnest; for I am aware of your situation, & pray name at any time if [I c]an serve you – [illegible] write this out of policy but I hope you will na[me]

To endeavour to amuse you and to lay a foundation for a continuance of our friendship and correspondence I will tell you how we pass our time on high days and Holidays—

Pic Nic's have been introduced as a most excellent remedy for killing Sundays, when we all go out to some Chacra where we send our dinner the day previous, and remain there till evening when we return warmed with the effects of generous Wine, which make some of our companions vent those shops in which you used to spend so much of your time.— On Xmas day we had rather a grand dinner when 104 Britons sat down to beef and pudding, and after taking a small potion of wine (say six bottles each) we retired to the race ground when hunting and racing became the sport, but the ground was so covered with tulips, that it was dangerous to ride about, amongst whom was Sturdy Mac laying on his back, old Read the same, and many more of our neighbours. The young men of this no longer dull city have also their parties, and we enjoy our Pic Nics regularly— Wybeo and myself gave one some time since when only two arrived in Lima that day, poor Armstrong fell off his horse 17 times and myself only 7— and the rest of our friends avarage

The buffarian Society is not carried on here, but the Poetic Society is the talk of the day - a meeting over a good supper is held once a month when no one can appear but wi[th] poetry, and that on any subject he may wish to write, and we have fine gazing I assure you - in short we spend our time far better than when you left us - - Where am I wandering to, you will think I have little command indeed over my pen to allow it to write so much nonsence -

No. 194 22nd January 1823

My Dear Hartnell

It gave me great pleasure to hear from Mr McCulloch, that your health was fully established with every prospect of continuing so — By the last accounts from England our old friend John Hodgson was almost dead from a consumption — his Brother William who you may recollect arrived in Chile a little before you left us again for home — Mac will tell you of W. J. Barnard being married to little Teresita Pratts of the Earthquake in Chile — of the Revolution fomenting at the same place &c &c consequently I will not dwell on these general topics of conversation —

I send by Mr McCulloch the Spanish Book called "Arte de Escribir" which you wished for on the day of your sailing from Callao — I beg your acceptance of it as a mark of friendship — Provided I get any supplies of Newspapers from England I shall occasionally send you some by such opps as occur —

I have an order from England for Curiosities of any nature, now as you may perhaps have opportunities of picking up a few in

your parts [illegible] [illegible] by your doing so, and drawing on me for the cost, but it will be requisite to say that $100 is the extent I could wish to go — On second thought — I could pay into Mr Beggs hands, any expense you may be at in procuring and sending anything curious! — Perhaps you could send me a few Bows with Arrows, and an Otters Skin of first quality

Most sincerely wishing you may prosper in all your undertakings and continue in the enjoyment of health & happiness

Believe me to be

My Dear Hartnell

Your sincere friend

Luis I have taken nothing in. as to the Caledonia dont be alarmed as I expect the Brig Neptune will come first & if she does we will load her with tallow & keep all the hides for the Caledonia, for the present I dont intend to take in any more hides than what I can get from Particulars, this is your third that I have before me now, I shall endeavour to be with you in less than a month from this date, One of the Padres goes down on Wednesday, as tomorrow & Tuesday are holidays, I expect to be able to make something of a Sale here like that of the Purisima - every thing you mention in yours will be attended to, make yourself easy for the love of your grandmother & believe every thing will be attended to by

Dear Hartnell

I am on the point of leaving this for St. Juan Capistrano, the sales here amounts to the Mission 5.852 Ds. y Vs. & to Particulars about 1.200 Ds. like good Christians the Padres laid their hand on all the Gold I had as also three thousand dollars in Plata Sencilla, From Padre Ripoll I had a note he asks 5½ V. for taking the hides from St. Buenaventura if you should approve of this write him if not you can let matters stand until my arrival which I hope will be in twenty days from this date, I have laid aside the locks for St. Juan as also the Colours. I have only been able to get two barrels of aguardiente, to the South I will endeavour to get more, I have got my clerk on board, who I believe will give very good acct. of what has been left with him; he has about 300 hides if not more, I will wind up the old acct. with him, & leave him some goods on his own acct. to look for hides & ——

Yours truly

Dear Hartnell,

An opportunity offering I beg leave to acquaint you of my safe arrival here last night I wrote you from St Pedro since I have done nothing more than selling about 400 Drs to the Mission of St Juan Capistrano, here they have not as yet arrived from the Missions, but today I expect them. I hope to leave this on Thursday for Head Quarters - I would recommend you to get & keep a Copy of the Contract with the late Perfecto as when in St Gabriel they wanted to make it out that according to the Contract we are obliged to take Manteca de Puerco, if you have not got it, no doubt Padre Anto Rodriguez of the Purisima will be able to supply you - They got the Caballer up to the Mission of St Gabriel bought by Padre Sanchez & now they both write me here that it is too dear - I shall be with you with God Blessing in about 12 or 15 days. at St J. Capistrano I got two more barrels of Aguardiente which makes four & is all I expect to get - I shall write you before I leave this in the mean time

Yours truly

Sir

I touch'd at Monterey a few days since for the purpose of leaving some letters and was boarded by Capt Cooper who in answer to my inquiries after my friends on shore replyed that they were all well and furthermore added that Mr Spence was very much put out with me on account of something I had reported to Mr McCollough at Lima prejudicial to his Character – At first I Supposed it to be a hoax of Coopers to induce me to Anchor but upon his assuring me of the case I went on shore to Mr Spence to request an explanation – the substance of which was as follows – That while on the Coast of Peru I had Contrived by some means or other to get introduced to Mr McCollough and had stated to him that you had a parcel of useless Law Clerks about you or Something to that effect & had moreover insinuated that he Mr Spence was the person alluded to – on inquiring of him where he obtained his information he told me he

276

receiv'd it from you that it was an extract
from a letter of Mr McCulloch's
Now a plain simple statement of facts are
that I never saw Mr McCulloch in my
life or any of the concern after I left the
Coast nor never was in Lima — when on the
coast of Peru I touch'd at Huacho where
I lay three days and gave the letters I had
in charge to the Intendant as I did not
see any English Gentleman there — I requested
him to forward them to Lima and also wrote
a Note to John Begg or McCullough I do not
recollect which in which I inform'd them of
the sailing of the John Begg the arrival of
the Juncus(?) & that the Esther was expected to
sail in May this I was requested to do
by Capt Davis & Carter — I furthermore state
there had been a long continuance of bad
weather on the Coast — but not one syllable
regarding any one of the concern or anything
that could be interpreted that way — and as
it regards my endeavour(?) to get introduced it
is probable that Mr McCullough & myself would
long remain Strangers before I should solicit
an Introduction

As Mr Spence has refer'd me to you and I
wish to have the matter cleared up You
will oblige me by a Copy of the Paragraph
alluded to in Mr McCullough's letter as
from the accounts I have always heard and
the opinion I have always entertained of
You I cannot for a moment suppose you
would propagate such a report unless
You had some foundation for it

Mr. William P. Hartnell –

Dear Hartnell – Since my last respects ℙ Neptune we have nothing from your quarter and have felt ourselves very awkwardly situated here – The Spaniards entered this 18th Ultmo and again abandoned it 17th inst. – and during their stay behaved in such a manner as you would hardly imagine, respecting all property and giving protection to every one who put themselves under their power – indeed we have all been surprised at their conduct, but no doubt it would have been very different had they entered under any other circumstances than what they did – Our Troops some 5000 Columbians went out to meet them on the Chorillos Road, but retreated before them to the Castles as they advanced and they broke up their Camp without fighting a battle – they took up their possession between this and the Port, and only made one advance to their foes, which was 25th Ultmo, when they were drawn up in number some 3000 men, which behaved in the most gallant manner – You will remember a camp between 254

Callao & Bella vista, and this was in the occupation of Canterac and a few infantry, while the main body were stationed all round the Castles, however finding they could not bring their enemy to a battle retired in the greatest order with a very small loss, a little skirmishing took place in which the ~~Spanis~~ Patriots were the greatest losers — Indeed had a general action been fought no doubt but they would have beat us — their force is some 7300 a 8000 men in excellent discipline and full of fight — It is said they were not aware of Santa Cruz's expedition to the Intermedios before they came to Lurin, and it is natural to suppose that expedition is now doing great things — Miller & Alvarado have gone on a second expedition with 3600 men, their destination is supposed to be between Pisco & Hilo — we entertain great hopes of the success of these expeditions, but still if a general battle is fought, I think it will be a hard one if the Spaniards are beaten — Bolivar has not yet arrived nor do we now entertain any hopes of his presence — — We got most of our Goods down to Callao & left such [illegible] as we got [illegible] get no means for their transportation — [illegible] Beard [illegible] Wallace remain

here, and all we run away (Begg, Read Wyld &c——)
made the best of our way to the Port— I was up in Lima
most of the time they were here & it was a pleasure to see
their Camp in such excellent order—
In Domestic affairs I have nothing new to communicate
— our house affairs going on as usual & as for office
business it is in a bad way— I wish you were here to get
Don Florentino Castro's Customhouse Accounts into
some order in their present state I would defy
old Nick to make any thing out of them— I am
still labouring at the Cash, and accounts for England
but my next will inform you I am no more in the
employ of your good partner— My time is out
tomorrow, and I have now in Callao some thousands
of Pounds of Goods and every reason to expect full
encouragement— I might have been connected
with John Begg &c but put no confidence
in their speculations with Government— the Loan
has all ended in smoke & how are they to get
paid? they have speculated in much more
to their own [illegible] had to loose— however, John 286

Lima 31st July 1823

Hugh McCulloch Esq

My dear Mac - It is now near ten oclock and we are all grumbling for our breakfasts - I wish you were here to give our Good Man a pull - I am so hungry I do not think I shall be able to give you any particulars however I will do my best —— I have written Hartnell ℘ this conveyance giving him an account of our politic situation and to him & your letter ℘ this conveyance I beg to refer you - the Captain I am afraid will be able to give you little news - from appearances he seems a stupid fellow - and his vessel is certainly kept in a very dirty state - I have several letters from Murphy he wishes much to get out here again - his wife has been very ill or he would have been ~~out~~ here long since - he wishes me to give him a description of your quarter, and he has I think some notion of going to you - I am not aware what produce or Goods might be sold with you, therefore cannot write him on the subject - neither can I beg the favour of

your addressing him – as you would imagine he would be doing you injury – by having any opposition – and as you intend to monopolize the whole of the trade it would be useless his endeavours to do any good – I shall write to him to stay where he is, and be content – but if you have any respect for an old friend I think you might write him – to by so doing you would not only be incurring the favour on him – but also by your old friends – We have nothing new in domestic affairs we go on in the old way – but our prospects are not very flattering & unless the Intermediate schedulations turn up well – I was just going to enter into a long detail upon the War between France & Spain but bringing to mind the great inclination you have for doing business in a superior style (that is by knocking of a letter quick). I think I had better conclude, but previously will remind you of your promises to forward me any curiosities you may pick up there over in your quarter, and for

the amount of the same you will be indemnified by Hartnell or myself — —

I am not in possession of any of your favours since my last and therefore cannot send you any trifle you may stand in need of — —

1/2 past 10 — — just got our breakfast — and by the bye it strikes me you will be anxious to know how your friend Eroilin got off with the Spaniards — & tis with pleasure I inform you he saved most part of his Goods being disappointed in not procuring Mules the last day — some part fell into the Enemy's possession — I hope you have met with more success with the Californian Lasses than you represented when last with us — I should not be surprised to hear of your being married — a wife from your Country w^d be a curiosity at home — & perhaps you might find some one here who would go home with you accompanied by a Limanita — Adieu dear Man

Believe me yours very truly

Gent

We beg to enclose you dup. of our respects of 2 May which we directed to you p Neptune and now repeat the pleasure by the Hebe which we send with the object of loading for this Coast. It was our intention to have sent you the Caledonia but she has been employed as a transport for the last 3 months and has not yet returned from Intermedios. The Hebe will be expect carry off all the produce you have Collected, for altho she measures only 225 Tons she will carry nearly 400.

We inclose you Copy of the original Charterparty and also of the agreement of the Captain to use the Vessels boat in the discharge & loading of Cargo - also of our Instructions by which you will observe that she touches at Valparaiso on her return and from thence comes to this place or proceeds to Liverpool as Circumstances may point out

The prospect of a war in Europe which will likely interrupt our relations with Russia may make Fallows an object worth attending to - But we fear if a rupture with Russia take place that your operations will be materially fettered if it does not entirely break up your Establishments - By accounts from England of April last war between France & Spain was Considered inevitable And altho England had not openly espoused the Cause of the latter yet there is little doubt she will be drawn into it - From Mr Brotherston's letters we infer the apprehension of a General Continental War - and perhaps you may be better able to judge how the Independence of Alta California will be effected if Russia enter into hostilities with England That she would endeavour to take possession of that Country may be questioned - But how far she might impede our trade is a Subject for our mutual Consideration - By the inclosed disp. you will gather our sentiments as to the line of Conduct you ought to pursue in regard to forcing the trade to its utmost

extent and we hope that the meas-
-ures you would immediately adopt
will secure a very large increase of
produce for next year. If you can
alarm the reverent fathers do not allow
their zeal to cool but urge them
to place beyond the reach of Contin
-gency the prosperity which can be con-
verted into any thing like articles of
Commerce - If during the Winter season
you can act upon this. let your time
be employed in Salting down Hides
and piling them in such a way that the
water will run from them and
that they be in a dry and good
Condition for Shipment of the first
vessel - The funds for these operations
will be at your command and by
the return of the Hebe you will be
able to inform us to what amount
you will require - But we expect

that for a great portion of them you
will be able to negociate Bills pay
able in Spain as you have already
done in two instances -

We inclose extract of a letter from
J Brotherston &c relative to the Curing of
Hides by which you will see the necessity
of attending particularly to the manner
to Streching them - Also as to Salted
hides you will observe they are exposed
to ferment and those you do Salt
be careful they be not Shipped in
a wet State - By exposing them the
salt will dry and incrustate and
in that State we should suppose
they would be perfectly safe -

You have also extract of a letter
from Wm Harrison &c of 9 April

on the Subject of the Vessels from you touching at Rio for the purpose of examining into the State of their Cargo. If the Neptune has not left the Coast on receipt of this you will give the Captain the necessary Instructions.

The letters accompanying this will inform you of our political Situation and also hand you Invoice of Paños de Estrella & Bayetones &c. we would have Shipped to a larger Amount but as they would arrive at an advanced Season we thought it better to defer it untill the first Spring Ships when we can act on Information from you.

The Tallow of Invt Tegg & Baring we have Sold at 12ƒ & 99d. It is

retailing a Serons at a time at 13ƒ Considerable imports have arrived from Buenos Ayres both of Tallow & Candles which have tended to depress prices. By the Prices Current you will observe that it keeps low in England — Hides maintain their price and in event of a war may be expect to advance —

You have every Stimulus to excite you to exertion, which the prospect of gain and the political uncertainty of affairs can possibly present and we hope that not only the whole of your ~~efforts~~ personal efforts will be directed to make the most of your present situation but that your Combinations and prudence will secure the best

results &c. We shall be anxious to hear from you and hope your first advices will be as satisfactory as we anticipate. The Bahia Packet ought to have sailed before this and the Neptune well advanced in her loading. These two vessels will take away 20.000 Hides and we expect the Jno. Bigg will be despatched with some 7 to 8000 by the end of the season.

If Tallow advances in England to a price which will pay the Hebe will be sent on with what she may have and tranship in Valparaiso any part of her Cargo destined for this ~~[illegible]~~ - Salt Beef continues low altho. the expeditions to the Intermedios have taken much out of the ~~[illegible]~~ - its price at present

cannot be quoted higher than 15#
p Bark but from the heavy shipments
which have been made on it we
expect the imports will not be so
considerable as they have been
hitherto - Grazu is little enquired
for and as we before have stated
its consumption is confined to the
Troops - Flat bds. for the expeditions
cost 18# p qt. but this price is no
rule - Manteca has been kept down
by the large arrivals of Butter from
all quarters and cannot be quoted
higher than 2½ rs. p lb -

We send you a few Newspapers from
which you can glean the European
News - and we remain

On reflecting on our Instru-
-ctions relative to the Hebe's touching at
Valparaiso we Consider it would
be more to our mutual Interests
that she should come direct to this
port as by doing so she will avoid
the Tonnage duty & port due of Valpso
and also the Commission of Begg
Barnard & Co for receiving & forwarding
the Cargo agreeable to Instructions —
besides if she go on to England expenses
will be saved by having discharged the

her that part of her Cargo valuable
in this place instead of incurring upon
it a new freight - and sending the
rest on direct from this port -

The only advantage that might attend
touching at Valparaiso would be the
lessening of the voyage some 15 or 20 days
if even as this is problematical and
her going to England uncertain we
consider under all Circumstances that
it would be more Conducive to
our Interest that you direct her
to Come direct to Callao -

We shall order Insurance accord-

I allow as expences in Monterey in carrying tallow to & from the beach the balance which is 32 Ds. 5 reals you will Credit me with being expences incurred in Prospect &c since I left Monterey — Enclosed you have a receipt of Logan's for 64 Dollars, which he got from Capt. Lincoln in Sn. Pedro, place the same to my Credit — What hides the Bahia Packet cant take ship in the Neptune dont leave any behind, as I am aware what prices will be offered by & by when the Yankee & half-Merchant comes this way; you will recollect what hides Barton has got here are ours, & them at Sn. Ynes from the first of October although a Vessel of his comes after that date, we would require to get some thing out of him, as the Goods we taken from him ~~is~~ are Dassim dear —— I would leave nothing here except with Jose Anto. Estudillo; if he should fancy any of such Goods as you may have on board be as moderate in the prices with him as possible I have received from him two Otter skins. One at 8 Dollars & the other at 3 Dollars which Amounts you will debit me with I have sold my Writing Desk to D. Pablo de la Portilla in 35 Dollars, this Desk is part of the J Begg's Cargo, therefore you debit me with the first Cost of the Desk at 37 Dollars & Credit me with 35 —— he has got a lot of 100 & odd hides which he promises to let you have on your arrival here —— I promised Jose Anto. Estudillo, should he ever wish to go to Lima, that after rendering Accounts to your satisfaction that you would provide him with a passage in one of our Vessels ——

you will debit me with the two otter skins, got at the Purisima as also the doz.n of Baskets got at S.a Barbara from Padre Ripoll, — I delivered Logan some hides at S.n Pedro, Enclosed you have the Notes of the diff.t Missions & a letter of Padre Juan Cabot's for Spain which you will enclose with the rest of letters for Europe should you have not bargained with any one for Mules I think some of the finest in the Country is about this place & J. Ant.o Estudillo, or Portilla would get them for you for one third of what you would have to pay any of the Padres, & this is the place where they would require to be shipped, should you be able to get any of the Captns. that may come here on our acct. to bring me a Mule to Callao, D. Pablo de la Portilla has grey Mule one of the finest in the Country, & promised to let me have her, if an opportunity offers, & you will settle with him for the Value of her — I believe Portilla thinks some of the encargoes I brought him from Lima over such as the Sword, therefore as I believe he got the sword at first Cost I would take it back again sooner than I would hear any thing about the matter, I shall take good care to attend to no more of theirs encargoes —

Sun Sett — I found out this moment that Lincoln has got upwards of Three hundred Dollars on board on acct. of Laughton, which I will leave with Jose Ant.o Estudillo for your Credit the House in Lima with the same, as I shall see Laughton paid them — Enclosed you have a receipt of the Captn. for Three hundred & thirty-two Dollars for what he has had from the diff.t Missions on acct. of the Brig's Disbursements If it should turn out short debit me with the balance & if on the Contrary Credit me — Do me the favor p.r first conveyance to send me a statement of my Private Acct. + — We start tomorrow morning (friday) + If I should think on any thing else, I shall write you from on board the Brig in the morning, at the time will be about to start — Give my best Respects to the Captns. — be active my Dear William & cut up all the new upstarts —

Sir

It is with pleasure I have to inform you of the arrival of the Brig Hebe, Captain Nixon last from Callao & consigned to you. Inclosed is a note from the Captain, with the different articles on board, there are likewise 3 small parcels & 2 letters, which will be forwarded to you, by the same conveyance as this goes by also 1 Book & a parcel of Newspapers, which I intend keeping here untill your return — I should be glad to hear (if there is no likelihood of your being here shortly) from you and let me know if any of the goods on board are to be landed & sold and what their respective prices. The Captain is anxious to know how he is to act. It is probable that Mr. McCligan will take the Cart & Wheel barrows on shore as they will be of great service at the new building. Dn. J. Malarin sailed from this port early this morning for Sn. Luis — Hoping shortly either to see or hear from you I remain Sir

Your Obedient Servant.

Geo. W. Allen

P. S. Every one here is anxious for your return
